Guest Safety

In light of the current health situation, we want to assure our guests that we are continuing our cleanliness efforts in the grille, casino and property wide. We are encouraging our guests to visit the restroom to wash hands before and after dining.

Please be understanding, as we are practicing social distancing as recommended by the CDC. Our employees will not be shaking hands with our guests at this time.

Things that Emerald Island Casino is doing to ensure the safety of our guests and employees:

1. We are frequently sanitizing all surfaces that people touch, including tables, chairs, booths, bar tops, menus, door handles, computers, slot machines and all surfaces in the bathroom, casino and kitchen, using disinfectant certified to kill coronaviruses.
2. We have continued to emphasize and train employees to follow our strict handwashing policies, which include requiring employees to wash their hands at least every 30 minutes (for at least 20 seconds) with soap and water. Our employees will continue to wear gloves when prepping any ready to eat foods and change gloves at least every 15 minutes, or more frequently as needed.
3. We also require employees to wash their hands every time after using the restroom, after touching his/her face or hair and before eating, preparing or handling food.
4. All soap dispensers have hand soap and paper towels present at all times and have signage posted in restrooms to remind guests of frequent and thorough hand washing. Additionally, hand sanitizer is available at numerous places in the casino.

Please reach out to any of our team members if you have any questions.

Thank you for your understanding,

Tim and Mike Brooks
